## Summary

Motivated and enthusiastic MERN stack developer, committed to enhancing my knowledge of professional ethics and aspire to build a distinguished career within a reputable company. My goal is to effectively demonstrate my exceptional interpersonal skills, contributing value to the organization, and establishing a prominent position within the industry.

## Skills

**Web Frontend:** HTML, CSS, JavaScript, React JS

**Backend Technologies:** Node JS, Express.js

**Database:** MongoDB

**Tools:** Git, GitHub, JIRA, Miro

**Other:** Basics of Python, Basics of Data Structures and Algorithms, Agile/Scrum methodology

## Professional Experience

### MERN Stack Internship: Gildware Technologies

#### Key Responsibilities:

Developed and maintained web applications using the MERN stack.

Collaborated with the development team to design and implement server-side logic using Node.js and Express.js.

Collaborated in an Agile development environment, participating in daily stand-ups, sprint planning, and code reviews.

### Website Admin/Content Management: Gemstones Travels

#### Key Responsibilities:

Created, updated, and maintained website content.

Ensured content accuracy, up-to-date information, and alignment with the company's branding and messaging.

## Education

### Bachelors of Computer Applications

University of Kashmir | 2017-2021 | CGPA: 7.9

## Projects

### **SocialMe: Social Media Platform (MERN Stack with Redux)**

**Description:** Developed a Social Media Platform using the MERN stack (MongoDB, Express.js, React, Node.js) with Redux for state management. The platform enables user registration, login, post creation with image uploads, and includes features like profile management and a friendship system. Key aspects include secure registration and login and post interaction. The project is built with a focus on a polished UI using Material-UI and ensuring responsiveness for various devices.

**Skills :** Authentication and Security · Version Control · Project Management · Problem Solving · Error Correction · Web Development · Databases · State Management
